"Still With Him" by Tony de Carlo

## Tony de Carlo

Tony de Carlo is a native of California and currently resides in New Mexico. The son of an artist mother, Tony is a self-taught artist who is noted for his uninhibited use and command of color. Through his work, Tony explores diverse subject matter and confronts issues relevant to the world community

head on. His intricate detailed designs provoke emotion, ignite the imagination, and entice the viewer to take a closer look at themselves and, in turn, others. Tony's work has been shown at various museums throughout the United States.

Diversity is an action, a style. It is not a number. It's a collection of many things. It's a culture, a multiplicity of actions that feed the culture; it's about respect and valuing differences. It's all about embracing and celebrating our differences, opening dialogue, and seeing the value of others.

Kevin Kelleher  
President and CEO and  
Chairperson of the Diversity  
Advisory Council, Cartus
