

# ICOI Winter Symposium

## Orlando, Florida

The Hyatt Regency Grand Cypress Resort

### January 25-27, 2007

*Pre-Symposium Courses: Thursday Morning, January 25, 2007*

*General Session Begins at 1:30 pm*

SPONSORED BY:

International Congress of Oral Implantologists (ICOI)  
Association of Dental Implant Auxiliaries (ADIA)

# Mission Statement

## **Upon completion of this program, participants will be able to:**

Understand the treatment of adolescents/children with dental implants; understand the complexities of treating the atrophic maxilla; appreciate the diagnostic and treatment development value of interactive computed tomography (CT), from identifying existing anatomy to planning bone regeneration, implant placement, as well as designing the final prosthesis; evaluate the current concepts in bone regeneration and soft tissue management; identify ideal situations for immediate implant placement and/or immediate implant loading; and recognize the key factors in the management of all of these conditions for maximum esthetic success.

**For a complete description of all course objectives, please refer to our website under Orlando Symposium.**

*Dear Colleagues,*

*Treatment of the atrophic maxilla is one of the biggest challenges in the field of implant dentistry. Rehabilitative concerns include hard and soft tissue site development, specificity in timing of implant and prosthesis placement, all with consideration of producing an esthetic result. This conference will analyze the multi-faceted treatment options and state-of-the-art tools available today to augment both our surgical and prosthetic outcomes. Attendees will develop an understanding of the science behind "the latest innovations in esthetics, bone regeneration techniques and 3-D planning."*

*With the scope of implant dentistry broadening into orthodontics, treatment for younger individuals is becoming more prevalent. A session of the conference will be dedicated to a consensus forum to create guidelines and give participants an appreciation of adolescent/child care with dental implants.*

*It is our honor to have an international panel of highly acclaimed speakers, all with an objective of presenting ground-breaking techniques, rooted in science. Using a diverse set of approaches, their collective goal will be to facilitate achieving implant surgical, prosthetic, and esthetic success.*

*With over 60 exhibitors, we invite you to immerse yourself in the magic of Orlando and see what the future of implant dentistry holds!*

*Sincerely,*

*Dr. Scott Ganz, Dr. Robert Kakos, Dr. Jack Krauser and Dr. Natalie Wong  
Scientific Committee*

# The Faculty

**Dr. Christopher Amenedo:** *Oral and Maxillofacial Surgeon, Faculty, Dept. of Dentistry, Montefiore Medical Center, Bronx, NY*

**Mr. Renzo Casellini, MDT:** *Swiss Quality Dental Ceramics, Los Angeles, CA*

**Dr. Robert J. Cronin:** *Professor, Department of Prosthodontics, University of Texas at San Antonio, TX*

**Dr. Scott Ganz:** *Maxillofacial Prosthodontist, private practice, Fort Lee, NJ*

**Dr. David Garber:** *Periodontist, Prosthodontist, private practice, Atlanta, GA*

**Dr. Arun Garg:** *Clinical Professor of Surgery, School of Medicine, Miami, FL, private practice, Aventura, FL*

**Dr. Jack A. Hahn:** *Private practice, Cincinnati, OH*

**Dr. Jack Krauser:** *Periodontist, private practice, Boca Raton, FL*

**Dr. Richard Kraut:** *Chairman and Director of Oral Maxillofacial Surgery, Montefiore Medical Center, Department of Dentistry, Bronx, NY*

**Dr. Omer Kutay:** *Prosthodontist, Professor in Dept. of Prosthodontics, Division of Complete Dentures at University of Istanbul, Turkey*

**Dr. Ziv Mazor:** *Private practice, Rá Ananan, Israel*

**Dr. Hee-Moon Kyung:** *Professor, Chair Department of Orthodontics, College of Dentistry, Kyungpook National University, Korea*

**Dr. Carl E. Misch:** *Prosthodontist, Director of the Misch International Implant Institute, private practice, Birmingham, MI*

**Dr. Craig Misch:** *Prosthodontist, Oral and Maxillofacial Surgeon, private practice, Sarasota, FL*

**Dr. Ady Palti:** *General Dentist, private practice, Kraichtal, Germany*

**Dr. Michael A. Pikos:** *Oral and Maxillofacial Surgeon, Director of MAP Seminars, private practice, Palm Harbor, FL*

**Dr. W. Eugene Roberts:** *Orthodontist, Head of Orthodontics Division of Dept. of Oral Facial Development, Director of Graduate Orthodontics Program at Indiana University School of Dentistry, private practice, Indianapolis, IN*

**Dr. Henry Salama:** *Periodontist, Prosthodontist, private practice, Atlanta, GA*

**Dr. Michael D. Smilanich:** *General Dentist, private practice, River Falls, WI*

**Dr. Dennis Smiler:** *Oral Maxillofacial Surgeon, private practice, Encino, CA*

**Dr. Muna Soltan:** *General Dentist, private practice, Riverside, CA*

**Dr. Marius Steigmann:** *Adjunct, Professor of Oral and Maxillofacial Surgery, Boston University, private practice, Neckargemund, Germany*

**Dr. Tomaso Vercellotti:** *Specializing in Periodontology and Implantology, private practice, Genova, Italy,*

**Dr. Hom-Lay Wang:** *Periodontist, Professor and Director of Graduate Periodontics, University of Michigan, Ann Arbor, MI*

# Pre-Symposium Courses

**8:00 am to 12:30 pm**

**Course Fee:** \$675 for Doctors, \$295 for Team Members (10% donated to IDREF)

**Dr. Arun K. Garg\***

*Block Grafting Tissue Bank Bone for Ridge Width and Height*

---

Allografts have been used for years as viable alternatives to autogenous grafts. They eliminate many of the disadvantages associated with autogenous grafts, including morbidity, limited volume and dimension of bone, IV sedation, and harvesting time. This half-day comprehensive program will be covering how allogeneic tissues from a tissue bank and in a block configuration are acquired, processed, and clinically utilized to maximize outcomes/benefits, step-by-step techniques to increase ridge height and width predictably, instrumentation, and associated fees. Learn these exciting techniques which are changing the way implant dentistry and related bone grafting is currently being performed and will increasingly be practiced and performed in the near future. This program will be conducted with lectures, and a Hands-on Workshop on a take home model. Additionally, this program will serve as a certification program for Puros Block graft training.

\* **Dr. Arun Garg:** *Private Practice, Aventura, FL*

**8:00 am to 12:00 pm**

**Course Fee:** \$50 (Includes Continental breakfast)

**Dr. Ady Palti, Dr. Barry Bartee and Dr. Robert Horowitz\***

*New Standards for Bone Regeneration before Implant Placement*

---

The loss of alveolar bone volume can prevent or delay the placement of dental implants or require extra procedures to regain the tissues necessary for ideal implant placement. For example, if no site preservation/augmentation is performed when a tooth is extracted, the socket will collapse which can lead to the need for a bone grafting procedure. New techniques and surgical materials have advantages for grafting depending on the types of defects being treated. Recent clinical studies and patient concerns about the safety of materials have put additional importance on assessing surgical techniques and bone grafting options. A variety of materials currently used for bone grafting at the time of extraction will be demonstrated with clinical, radiographic and histological results. Critical analysis will show their predictability and efficacy for bone formation in this crucial area.

\* **Dr. Ady Palti:** *Private Practice, Kraichtal, Germany*

**Dr. Barry Bartee:** *Private Practice, Lubbock, TX*

**Dr. Robert Horowitz:** *Periodontist, Private Practice, Scarsdale, NY*

**THURSDAY, JANUARY 25, 2007**

**8:00 am to 12:30 pm**

**Course Fee:** \$325

**Dr. Donald Callan\***

*Surgical Solutions for Restorative Problems*

---

Restorative dentistry depends on adequate hard and soft tissue support for esthetics, function and longevity of any restoration.

When teeth are lost, the socket is not replaced with bone, resulting in a hard and soft tissue defect. Hard and soft tissue regeneration procedures are to correct these defects to provide proper alveolar ridge form, width and height. The improved alveolar bone support will enhance the esthetics, function, longevity, and the predictability for existing or future fixed, removable prostheses and dental implants. The bone regeneration procedures, in all areas, will also increase the amount of surface area for supporting removable prostheses.

In the past, hard and soft grafting procedures were complex, time consuming and costly for the dentist thus, limiting the profit margin for the practice. With today's simple surgical procedures, better grafting materials, and improved implant designs the modern day dentists are now meeting and providing the requests and needs of all patients. Today, implant procedures and bone grafting are routine as basic restorative dentistry. In this age of cosmetic dentistry, patients are defining restorative procedures and implant success as an esthetic tooth replacement, natural function, reasonable longevity, and a healthy environment that can be maintained with routine oral hygiene.

The purpose of this program is to acquaint the clinician with various grafting materials and techniques for the enhancement esthetics and function of conventional and implant dentistry through tissue regeneration procedures for the general practice.

\* **Dr. Donald Callan:** *Periodontist, Private Practice, Little Rock, AR*

**8:00 am to 12:30 pm**

**Course Fee:** \$395 (10% donated to IDREF)

**Dr. James R. McAnally and Mr. Tom Briley, CDT\***

*The 7 Keys that Put More and Larger Sized Implant Cases into any Practice and Predictable Prosthetics for Complex Cases Resulting from Implant Specific Marketing*

---

This course reveals the 7 keys that every practice wishing to attract the largest and most complex implant cases must have in order to enjoy the routine generation of these cases. These critical keys increase case numbers, case size and the success rate of cases moving to treatment while minimizing wasted time and resources in the practice's marketing systems. Employing these keys result in the more routine attraction of patients requiring complex whole-mouth prosthetics therefore the prosthetic portion of the course will illustrate new and novel ways to maximize the clinician's time efficiency, to reduce operator stress and to lower costs associated with whole mouth implant prosthetics resulting from successful implant specific marketing.

\* **Dr. James R. McAnally:** *Clinical Dentist, Private Practice, Seattle, WA*

**Mr. Tom Briley, CDT:** *President of Universal Dental Laboratory, Malden, MA*

*Continued on next page.*

# Pre-Symposium Courses (Continued)

**8:00 a.m. to 1:00 p.m.**

**Course Fee: \$275**

**Dr. Dennis Smiler and Dr. Robert Kakos\***

*Antral Membrane Balloon Elevation: Sinus and Socket-Lift for the Non-Surgical Clinician*

This workshop presents the Antral Membrane Balloon Elevation technique for sinus and socket-lift graft surgery. The AMBE is an office surgical procedure that can be utilized by the non-surgical specialist for site development in preparation for implants. The AMBE technique is reviewed in detail. The basic concepts of flap design, sinus membrane elevation, bone graft materials, and simultaneous implant site preparation are explained. The course objectives are to provide the clinician with knowledge and understanding of the surgical requirements for Antral Membrane Balloon Elevation. The workshop presentation by Dr. Smiler and Dr. Kakos will be a combination of lecture material, hand-outs, videos of selected procedures and hands-on model surgery.

\* **Dr. Dennis Smiler:** Oral Surgeon, Private Practice, Encino, CA

**Dr. Robert Kakos:** Oral Surgeon, Private Practice, Roswell, GA

# Scientific Session

## THURSDAY, JANUARY 25, 2007 • AFTERNOON SESSION

---

### *Adolescent / Child Care with Implants – A Consensus Conference*

1:15 pm to 1:30 pm	<b>WELCOME - Dr. Carl Misch</b>
1:30 pm to 2:15 pm	<b>Dr. Carl Misch:</b> <i>Maxillary Anterior Single Tooth Replacement in Adolescents</i>
2:15 pm to 3:00 pm	<b>Dr. Robert Cronin:</b> <i>Dental Implant Placement and Restoration in Growing Patients: When, Where, and How?</i>
3:00 pm to 3:45 pm	<b>BREAK WITH EXHIBITORS</b>
3:45 pm to 4:30 pm	<b>Dr. W. Eugene Roberts:</b> <i>Orthodontic Implants in the Adolescent</i>
4:30 pm to 5:15 pm	<b>Dr. Hee-Moon Kyung:</b> <i>The Variable Use of the Microimplant for Adolescent Orthodontic Patients</i>
5:15 pm to 5:30 pm	<b>QUESTIONS AND ANSWERS</b>
5:30 pm to 7:00 pm	<b>TABLETOP PRESENTATIONS AND WELCOME RECEPTION - Exhibition Hall</b>

## FRIDAY, JANUARY 26, 2007 • MORNING SESSION

---

### *New 3-D Technologies*

8:30 am to 9:15 am	<b>Dr. Scott Ganz:</b> <i>It's Not the Scan, It's the Plan™ - Linking Diagnostics with Surgical and Restorative Outcomes</i>
9:15 am to 10:00 am	<b>Dr. Michael Pikos:</b> <i>Esthetic Zone Reconstruction: Synergy of Interactive CT/Hard &amp; Soft Tissue Grafting</i>
10:00 am to 10:45 am	<b>BREAK WITH EXHIBITORS</b>
10:45 am to 11:30 am	<b>Dr. Jack Krauser:</b> <i>Introduction to Guided Surgery: Surgical Advantages and Prosthetic Options</i>
11:30 am to 12:15 pm	<b>Dr. Ady Palti:</b> <i>New Technologies in Oral Implantology: Immediate Loading for Perfect Aesthetics</i>
12:15 pm to 12:25 pm	<b>Dr. Kenneth Judy:</b> <i>ICOI's International Multi-Lingual Website</i>
12:25 pm to 1:30 pm	<b>LUNCH WITH EXHIBITORS</b>

## FRIDAY, JANUARY 26, 2007 • AFTERNOON SESSION

---

### *Implant Treatment of Atrophic Maxilla*

1:30 pm to 2:15 pm	<b>Drs. Dennis Smiler and Muna Soltan:</b> <i>Cell-Based Strategies for Bone Regeneration: Bone Marrow Aspirate</i>
2:15 pm to 3:00 pm	<b>Dr. Arun Garg:</b> <i>Review of Graft Materials and Their Clinical Indications</i>

3:00 pm to 3:45 pm

**Dr. Tomaso Vercellotti:** *Differential Implant Site Preparation*

3:45 pm to 4:15 pm

**BREAK WITH EXHIBITORS**

4:15 pm to 5:00 pm

**Dr. Richard Kraut and Christopher Amenedo:** *Restoration of the Edentulous Maxilla: Case Presentations*

5:00 pm to 5:45 pm

**Dr. Ziv Mazor:** *Sinus Augmentation: State-of-the-Art Techniques and Grafting Materials*

5:45 pm to 6:00 pm

**QUESTIONS AND ANSWERS**

6:30 pm to 7:30 pm

**AWARDS CEREMONY - Grand Ballroom**

## SATURDAY, JANUARY 27, 2007 • MORNING SESSION

---

### *Implant Esthetic Considerations*

8:00 am to 8:45 am

**Dr. Omer Kutay:** *Success Factors for Implant Supported Removable Dentures*

8:45 am to 9:30 am

**Dr. David Garber and Henry Salama:** *Immediate, Functional and Esthetic Replacement of Missing Anterior Teeth*

9:30 am to 10:15 am

**Renzo Casellini, MDT:** *Solutions for Implant Restorations: Treatment Planning and New Technologies Guarantee Implant Success*

10:15 am to 10:45 am

**BREAK WITH EXHIBITORS**

10:45 am to 11:30 am

**Dr. Michael D. Smilanich:** *How to Minimize the Problems of Bruxism, Parafunction and Lost Vertical Dimension in the Implant Patient*

11:30 am to 12:15 pm

**Dr. Marius Steigmann:** *Soft Tissue Shaping for Esthetic Needs*

12:15 pm to 1:30 pm

**LUNCH WITH EXHIBITORS**

## SATURDAY, JANUARY 27, 2007 • AFTERNOON SESSION

---

### *Immediate Load and Consensus Review*

1:30 pm to 2:15 pm

**Dr. Jack Hahn:** *Immediate Extraction Replacement and Immediate Provisionalization: Put the 'WOW' into Implant Dentistry*

2:15 pm to 3:00 pm

**Dr. Hom-Lay Wang:** *Immediate Implant Loading: Functional vs. Non-Functional/Flap vs. Flapless*

3:00 pm to 3:45 pm

**BREAK WITH EXHIBITORS**

3:45 pm to 4:30 pm

**Dr. Craig Misch:** *Immediate Loading of Implants in Reconstructed Bone*

4:30 pm to 5:00 pm

**Dr. Carl Misch:** *Consensus Conference Review, "Adolescent/Child Care with Implants"*

5:00 pm to 5:30 pm

**QUESTIONS AND ANSWERS**

# Auxiliary Program

## MISSION STATEMENT

---

This ADIA Symposium is aimed at enhancing the understanding of the responsibilities of each member of the implant team and providing information essential to auxiliaries working with dental implant patients. A major goal is to evaluate the interaction of implant patients and team members and review methods the team can apply to help guide patients through implant therapy and its various components. The program will address all aspects of implantology including treatment planning, surgical and prosthetic procedures case presentation, answers to commonly asked questions, financial arrangements, medical/dental insurance as well as motivation and marketing.

**For a complete description of all course objectives, please refer to our website under Orlando Symposium.**

## OBJECTIVES

---

**Upon completion of this two-day program participants will be able to:**

- Develop an appreciation for the role of dental implants in the maintenance of oral health
- Discuss the different options related to choosing implant size
- Identify potential medical & medicinal complications related to implant dentistry
- Develop a knowledge base related to treatment planning implant cases
- Understand the causative factors of bone loss around implants
- Describe important techniques for effective case presentation
- Understand surgical and prosthetic components utilized in implant dentistry
- Understand how to discuss treatment fees and present financial options
- Review the techniques and skills involved in implant maintenance
- Develop techniques for good intra/inter office communication and documentation
- Understand the laboratory procedures involved in implant therapy
- Evaluate basic computer skills to conduct Evidence Based Research
- Identify the hands on application of various technologies from practice management to diagnostic and therapeutic instruments/equipment
- Understand keys to successfully implementing patient financing
- Understand setting revenue and activity goals
- Review questions to ask when choosing a patient financing company

## THURSDAY, JANUARY 25, 2007

---

1:00 pm to 5:00 pm - **Christine Uhen**

**Implant Coordinator Training Program:** Attracting new patients; Marketing; Office Brochures; Customized Informational Packets; Pre-Treatment Planning; Presenting Fees; Payment Options; Documentation, Record Keeping & Consent Forms; Appointment Scheduling; Inventory Control; Inter/Intra Office Communications; Laboratory Communications

**All attendees will receive the ADIA's handbook "The ADIA's Guide to Simplifying Implant Dentistry". Attendance is limited.**

## FRIDAY, JANUARY 26, 2007

---

8:00 am to 8:45 am      **REGISTRATION**

8:45 am to 9:00 am      **OPENING COMMENTS & INTRODUCTIONS - Dr. Kenneth Judy**

9:00 am to 9:45 am      **Dr. Natalie Wong**

*Treatment Planning and Indications for Narrow Diameter Implants*

9:45 am to 10:30 am      **Mark Marinbach, CDT**

*Enhancing Relationships with Your Laboratory*

10:30 am to 11:00 am      **BREAK**

11:00 am to 12:30 pm      **Heidi Dubois-Robinson & Corrine Woodworth**

*The Periodontal Link to Implant Dentistry*

12:30 pm to 2:30 pm      **LUNCH AND LEARN**

**Linda Meeuwenberg**

*Increasing Practice Effectiveness & Profitability*

2:30 pm to 4:00 pm      **Dr. Sam Strong & Stephanie Strong**

*Building a Strong Implant Team*

4:00 pm to 4:45 pm      **Michael Hill & Roger Giannico (Unicorn Financial)**

*Capitalizing Patient Financing to Grow Your Implant Practice*

4:45 pm to 5:00 pm      **CLOSING COMMENTS & QUESTIONS**

*Continued on next page.*

# Auxiliary Program (Continued)

**SATURDAY, JANUARY 27, 2007**

---

**Certification Programs are conducted simultaneously in 3 different rooms**

*Please Choose One Program*

9:00 am to 5:00 pm - **Edie Shuman-Gibson**

**Dental Hygiene Implant Certification Program (DHICP)**

Rationale for dental implants; Classification and Definitions of Dental Implants; Contra-indications; Implant/tissue interfaces; Assessment, Diagnosis, and Treatment Planning; Implant Surgical & Prosthodontic Procedures; Maintenance and Evaluation Procedures; Management of implant complications and failures.

9:00 am to 5:00 pm - **Karen Young**

**Practice Management Implant Certification Program (PMICP)**

Terminology and definitions; Case Presentation & Handling Objections; Commonly asked questions and appropriate responses; Fee presentation; Financial options and arrangements; Risk management, documentation and record keeping; Practice Plans and Marketing; Referrals; Intra/inter-office communications.

9:00 am to 5:00 pm - **Kathi Carlson**

**Dental Assisting Implant Certification Program (DAICP)**

Classification and Definitions of Dental Implants; Indications & Contraindications; Bio-mechanics & Biomaterials; Client evaluation, assessment and selection; Treatment planning, site selection, and implant selection; Implant complications and failures; Surgical Templates & Stents; Pharmacology & Sedation; Surgical preparation and infection control; Surgical procedures; Sinus lifts, bone grafts, tissue regeneration; Prosthetic Procedures; Provisional prostheses & fabrication of temporaries; Impressions; Laboratory considerations

**1:00 pm to 2:00 pm - LUNCH FOR ALL CERTIFICATION PROGRAMS**

# General Information

## TABLETOP CLINIC PRESENTATIONS

THURSDAY, JANUARY 25, 2007

5:30 PM TO 7:00 PM

---

A perfect way to get involved with an ICOI meeting is through participation in our Tabletop Clinic Presentations/Competition. It affords presenters the opportunity to interact with colleagues in a social, yet instructive manner.

Tabletop Presentations will be held on Thursday, January 25, 2007 during the Welcome Reception in the Exhibition Hall. Tabletop Clinic Presentations should only last five to seven minutes and are repeated as new observers gather. These presentations will be judged with the winners receiving awards and Main Podium consideration for future meetings.

**REMEMBER, ALL FELLOWS, MASTERS AND DIPLOMATES WHO CONDUCT TABLETOP CLINIC PRESENTATIONS HELP TO FULFILL THEIR FIVE-YEAR MAINTENANCE REQUIREMENT.**

Those parties interested in conducting a Tabletop Clinic Presentation must contact Dr. Avi Schetritt to request an application.

**Dr. Avi Schetritt** • 2226 West Atlantic Avenue, Suite W • Delray Beach, FL 33445

**E-Mail:** dravischetritt@verizon.net

**Fax:** (561) 330-3840

***Requests for applications must be submitted by January 9, 2007 for consideration.***

*Those received after this deadline will be carried over to the next ICOI meeting.*

## HOTEL INFORMATION

---

We are proud to be holding the ICOI Winter Symposium at the Hyatt Regency Grand Cypress Resort. Located at the entrance to Walt Disney World, the Hyatt offers a wide range of services, swimming, a 45-hole Jack Nicklaus designed golf course, a chip-and putt course, horseback riding, shopping and numerous restaurants.

**Hotel reservations can be made by calling the hotel directly: (407) 239-1234.**

Be sure to indicate the ICOI Winter Symposium to ensure the special discount rate of \$229 for single or double occupancy. Rates include a resort fee but not local tax. You may also fax the hotel at (407) 239-3837.

**Reservations must be made by December 26, 2006 to guarantee availability.**

*Continued on next page.*

# General Information (Continued)

## ACCREDITATION

---

This program is authorized for **22 hours** of Mastership and Fellowship maintenance credits by the Academy of General Dentistry. Credit is awarded and based on actual number of courses attended. A form for this purpose will be included in your registration packet.

**The ICOI is an ADA CERP recognized provider.**

## ACCOMPANYING PERSONS

---

Orlando is the home of Walt Disney World, Epcot Center and Universal Studios, to name a few tourist attractions. Your spouse or companion will find plenty to occupy his/her time and, of course, Orlando is the nation's playground for the young so plan to bring your children.

Should your accompanying person elect to attend the symposium, a charge of \$125.00 will cover the following:

- Admission to the Welcome Cocktail Reception on Thursday evening
- Admission to the Scientific Sessions and Exhibits
- Breakfast, Lunch and Coffee Breaks for two days

## SOCIAL SCHEDULE

---

### **WELCOME COCKTAIL RECEPTION • THURSDAY, JANUARY 25, 2007 • 5:30 PM TO 7:00 PM**

Our Welcome Cocktail Reception in the Exhibition Hall follows the afternoon session of the symposium and allows for delegates to relax with drinks and hors d'oeuvres, commiserate with colleagues, take advantage of product discounts being offered at the meeting by our exhibitors and to experience and discuss presentations made by our Tabletop Clinic participants.

### **DIPLOMATE/MASTERSHIP/FELLOWSHIP AWARDS RECEPTION • FRIDAY, JANUARY 26, 2007 6:30 PM TO 7:30 PM**

Plan to attend this reception as we salute our advanced credentialed members. Dress code is business attire.

The cost for this reception is **\$25 per person**. Please indicate on the registration form the number of guests in your party. **Those receiving credentials and one guest are gratis.**
